

A Circular Partnership

Community Story

Value Match and [Circular Computing](#) are both value led businesses actively embedding social value at the core of our operations. Value Match partnered with Circular Computing to replace our current front-end IT infrastructure specifically our laptops with Circular Computing remanufactured, carbon-neutral devices.

Our partnership underpins one of our core values; [value the environment](#). For every Circular Computing laptop purchased, Value Match contributes the following benefits;

- 5 trees planted.
- 316kg CO2 saved.
- 190k litres of water saved.
- 1,200kg of mining minerals prevented.
- 600kg of sequestered carbon emissions.
- 0% e-waste produced.

Value Match continue to develop and work with new and current partners, colleagues, and customers to maintain a positive environmental impact and by working with Circular Computing our values and goals are met as we continue to benefit and value the environment.
